## Library Activities (November)

The School Library has purchased DVDs to enrich its audio-visual collection, ranging from English films to Chinese movies. Good picks of new arrivals: The High School Musical series, the Disney Pixar series, Avengers, the Maze Runners, Scorch Trials and At the night Museum. Please come and borrow them home!

Besides multimedia resources, the School Library is also devoted to theme-based book recommendations. In November, PSHE was the highlight of the month. In addition to reading factual or historical information, students are encouraged to widen their horizons by performing in-depth reading of books that introduce the most updated perspectives of the world and critical thinking of outlooks on life values and lifestyles.

## Library Activities (November)

The School Library is also well-supported by our alumni, who have donated and recommended thought-provoking books to our young learners. It certainly sheds some light on how Jubileans can train to be a better leader of tomorrow!

November was well concluded with the F.2 inter-class mini Battle of the Books competition where the Form 2 students engaged themselves in reading classic stories in English and battling for their own class! The audience was so excited and supportive of their classmates on stage!
