

# A book for F.6: The Magic of Thinking Big

# Book recommendation

- What a life-changing book for you!
- Think of the people who earn five times as much as you. Are they five times smarter? Do they work five times harder? If the answer is no, then the question "What do they have that I haven't?" may occur to you.
- In a book that has sold several million copies, David Schwartz suggests that the main thing separating them from us is that they think five times bigger. We are all, more than we realise, the product of the thinking which surrounds us, and most of this thinking is little, not big.
- Dear F.6 students, you may start relying more on yourself than your family. So start planning your life by taking little, yet powerful steps! There'll be a lot of inspirations from the author!

# Book recommendation

- How anyone can be more effective with less effort by learning how to identify and leverage the 80/20 principle—the well-known, unpublicized secret that 80 percent of all our results in business and in life stem from a mere 20 percent of our efforts. The 80/20 principle is one of the great secrets of highly effective people and organizations.
- Did you know, for example, that 20 percent of customers account for 80 percent of revenues? That 20 percent of our time accounts for 80 percent of the work we accomplish? *The 80/20 Principle* shows how we can achieve much more with much less effort, time, and resources, simply by identifying and focusing our efforts on the 20 percent that really counts.
- Another a life-changing book for you, dear F.6 students! You may come across a dilemma where you want to achieve more but you find time is getting less and less.
