World Scholar's Cup Tournament of Champions

8 Jubileans participated in the Tournament of Champions of the World Scholar's Cup at **Yale University** from **7/11 to 15/11**. The World Scholar's Cup is an international academic competition in which students study a syllabus of six subjects revolving around a central theme.

This year, participants are required to read, research and explore materials related to "**A World of the Margins**" and are challenged in debates, collaborative writing, and quizzes. Apart from engaging in the intense competitive events, Jubileans also immersed themselves in the academic vibe of the Yale University campus and spent an eye-opening day in the hustle and bustle of New York City.

BHJS News Bulletin
